hello

OK, we admit. Every year, we flop on the couch with a humongous bowl of popcorn and watch every last minute of **the Oscars**.

We check out what the **celebrities** are wearing, watch those frozen smiles as the envelope is torn open and **make fun** of the big dance numbers.

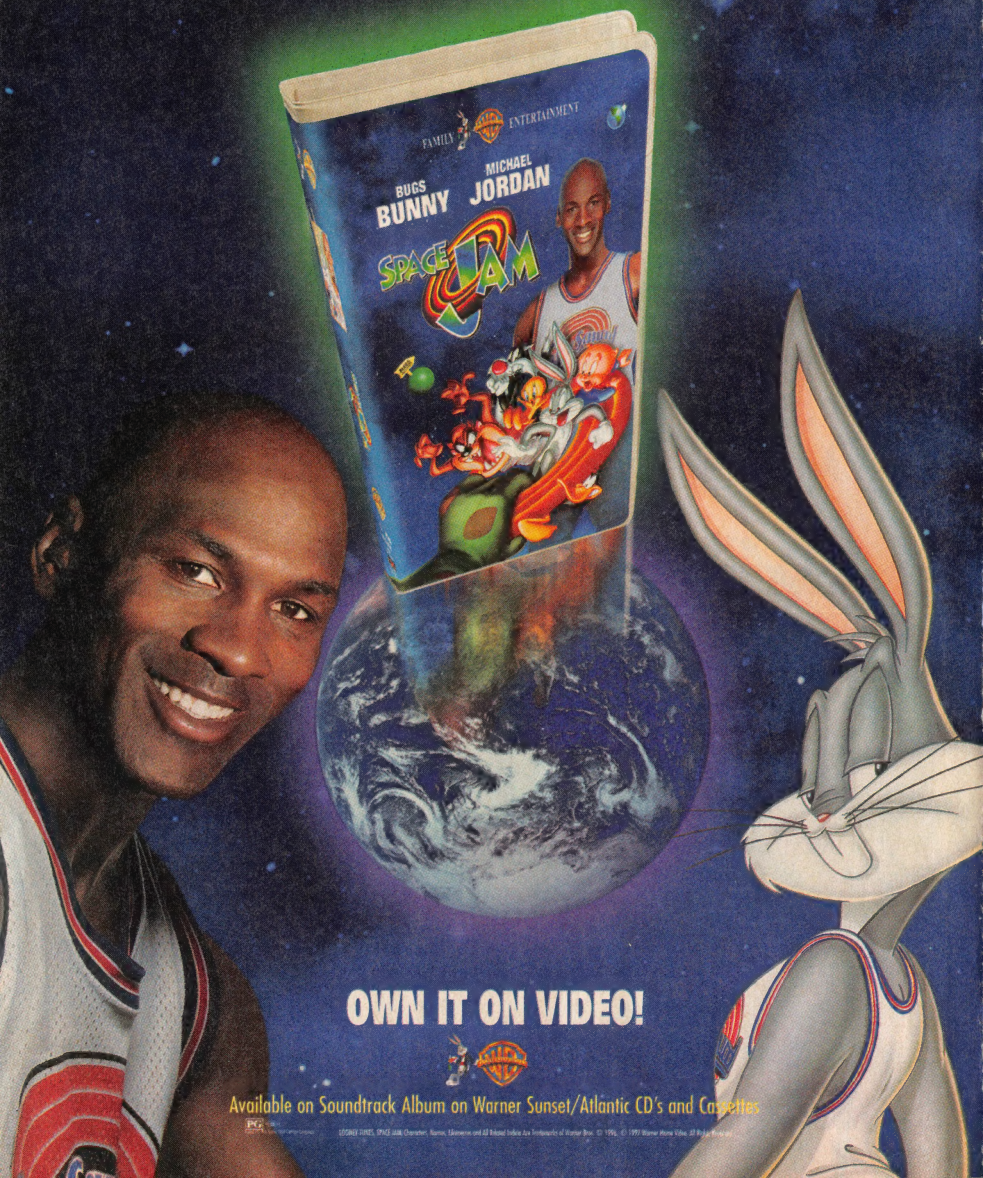

But we have a major gripe about the Oscars: **Kids can't vote!** After all, kids spend billions of dollars every year on movie tickets; shouldn't they be allowed to pick the **best actor**, the **best stunt**, the best movie **starring an animal**? So we started the **D.A. Movie Awards**. Now **you have the power** to choose the year's best movie moments! Just turn to **page 32**, fill out the ballot and send it in. We'll announce the **winners** in a **future issue**.

The Truth Is Out There

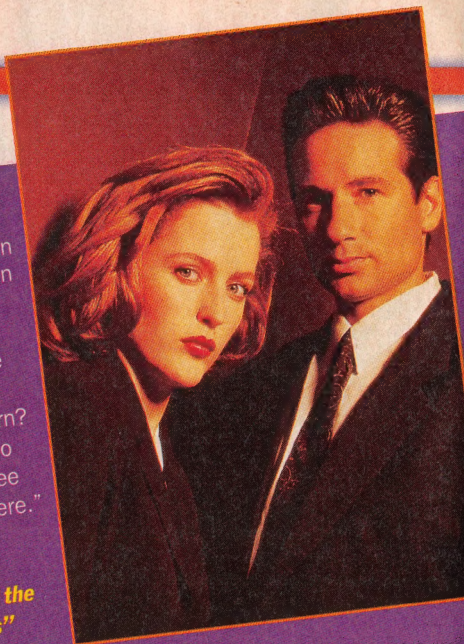

I'm a mega X-phile (big "X-Files" fan). I have an "X-Files" challenge to match your questions in Ticket in the March 1996 issue.

1. Agent Mulder has had three elusive benefactors over the past four seasons. Name them.
2. When were Agents Mulder and Scully born?
3. Since the show began, the opening credo has changed seven times. Name at least three different credos besides "The truth is out there."

I enjoyed your "Business-Card Boy" article in the December 1996 issue. One thing, though—I have 1,632 business cards from 40 states, plus cards from tons of other countries! I have 800 from Arizona alone. Can I have one of your business cards to bring my tally to 1,633?

I was reading old issues of D.A. and in the September 1996 issue, there was something about tarantulas. Well, when I turned the page, out crawled a large, live daddy longlegs! Awful Art

If your drawings look so bad they don't even get taped to the fridge, then the **Museum of Bad Art (MOBA)** may be just the place for you. Located in Dedham, Massachusetts, **MOBA** collects, well, bad art. "**Pablo Presley**" (left) is one of its most popular paintings, many of which are found in the trash! Why should anyone care about bad art? "**It makes people laugh,**" says one of the museum's founders. Now that's not common museum behavior!

Food for Thought

Does your school cafeteria pass the healthy lunch test? Not if you live in Chicago, Los Angeles or Washington, D.C. The Physicians Committee for Responsible Medicine graded the fat content of school cafeteria meals across the country and flunked school meal planners in those cities' school systems. The bad news: They have menus similar to this one.

Farm Forecasters

Believe it or not, farm animals do weird things when it's about to rain, according to Penn State University agricultural science professor Stanley Curtis. For example, you can bet on a shower whenever...

- cows scratch their ears.
- roosters cock-a-doodle-doo at night.
- sheep gather together.

- Involuntary typing movements with your fingers
- Sudden interest in taking a speed-typing course
- Constant purchasing of Internet books
- Consideration of computer mouse as a household pet
- Ditching after-school activities to log on

On Harriet's Case

As soon as we learned *Harriet the Spy* was coming out on video March 11, we grabbed our notebooks! Our mission: to track down the movie's star, Michelle Trachtenberg, 11, and find out what it's like to play a spy.

Why did you want to play Harriet?

"I read the book in fourth grade and it was one of my favorites. Harriet was so much like me—we both love to write and we both love tomato sandwiches."

Do you keep a journal?

"I keep a diary—it's more secretive because it has a lock. Writing is important to me."

You can express your thoughts and if you're upset, writing calms you

down and makes you feel better." *Was it fun working with Rosie O'Donnell,*

who plays Golly?

"She's the sweetest person! She got me started collecting Barbies and taught me songs from Broadway and commercials. And she started the Cherry Pit War! We were eating cherries and I felt a ping on my neck—Rosie was spitting pits at me, so I spit back at her. It was sticky but fun!"

—Kim Lockhart

Get Shrunk!

D.A. shrinks onto the set of the new direct-to-video movie, *Honey, We Shrunk Ourselves*.

When D.A. stepped onto the set of *Honey, We Shrunk Ourselves*, we saw M&M's the size of beanbags and a human-size Hot Wheels car. We thought we'd set foot in the land of the giants! But these were just humongous props used in the movie, which comes out directly on video March 18.

Some quick background: In *Honey, I Shrunk the Kids*, Rick Moranis played a crazy inventor who shrinks his kids and the neighbor kids to the size of ants. In *Honey I Blew Up the Kid*, the shrink-happy dad blows it again—in reverse. He enlarges his 2-year-old until he's bigger than King Kong. In the latest *Honey* entry, the inventor mistakenly shrinks himself, his wife and his sister and brother smaller than Cheerios.

In the new movie, the kids are clueless as to their *little* parental problem and decide to throw a raging party because they think they have the house to themselves (our kind of people!).

Little Rick Moranis gets wired for sound inside a stereo.

Ron Batzdorff/©1995 Disney Home Video (this page and opposite page)

Bug Hall plays Adam (you might recognize him from his role as the wack-haired Alfalfa in *The Little Rascals*). He says acting is

easier than memorizing his multiplication tables.

"When the director tells me to do something or act a certain way, I just pretend—like when you're playing," says 12-year-old Bug. "I don't think it would be cool to be small like in the movie because it would be hard to get places...but at least you could ride around on the dog!"

Jake Richardson, who plays Mitch, goofed around like a gorilla and majorly cracked us up when the director told him to "scratch yourself, jump up and down and make monkey sounds."

"Acting goofy like a monkey doesn't embarrass me," says Jake, 12. "Plus, the director said if I did a good gorilla, I could have a billion bananas!"

Allison Mack, 14, plays Jenny, one of the older, hip kids in the movie. Allison says she never gets bored, no matter how many times they have to reshoot a scene.

"I have different ways to make myself laugh, so it's easy to crack up even though I just watched Jake eat floating bubbles from the bubble machine for the tenth time!"

—By Jodi Bryson

Celebrity Doubles

Hey, what's Val Kilmer doing on "Home Improvement"? Oh wait, that's JTT! Is it just us, or do a lot of celebrities have would-be twins running around? Take a double look.

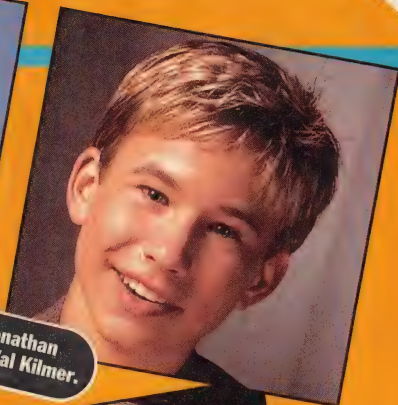

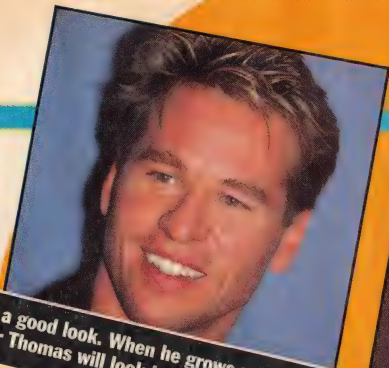

The hair, the microphone grip, the pained look they both usually have—could Alanis Morissette and Anthony Kiedis (of the Red Hot Chili Peppers) be the same rocker in disguise?

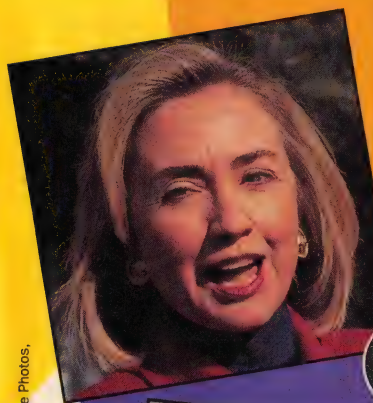

Chelsea Clinton and Joan Osborne: Curls, curls everywhere! The only thing Chelsea's missing is a nose ring!

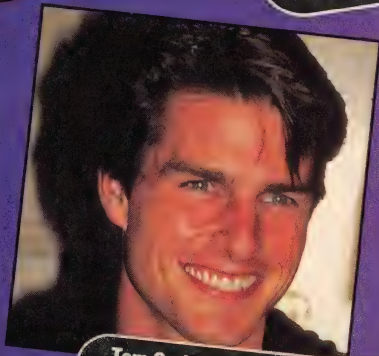

©Jay Blakesberg/Retna Ltd.; Neal Preston/Retna Ltd./©A&M Records; Lisa Rose/Retna Ltd.; Globe Photos, Inc.; Albert Ferrera/Globe Photos, Inc. (clockwise from top left)

Take a good look. When he grows up, we think Jonathan Taylor Thomas will look just like former Batman Val Kilmer.

What's with the Clintons and their hair? Maybe First Lady Hillary Rodham Clinton sees the same wicked stylist as "Sabrina, the Teenage Witch" star Melissa Joan Hart.

Tom Cruise and Scott Wolf ("Party of Five"): We wonder if Nicole Kidman can tell them apart?

Power Rangers... Take Two

Pow! Bam! Swoosh! Those high-kickin', turbo-morphin', rainbow-colored Power Rangers return to the big screen in *Turbo: A Power Rangers Movie*, opening March 26. D.A. visited the set to find out about their new adventures.

"We're now called the Turbo Rangers and we morph with an ignition key, which gives us stronger powers."

—Nakia Burrise (*Tanya the Yellow Ranger*)

"When I got the part, I had a party to celebrate!"

—Blake Foster, 11, a real-life champion black belt who plays Justin (an orphan who discovers the Rangers' true identities)

"In one scene, I go down rapids, which I was totally into because I'd never seen them up close. I was freestyling and got sucked under many times. It was great!"

—Jason David Frank (*Tommy the White Ranger*)

"Bulk and Skull are abducted by aliens and undergo personality changes.

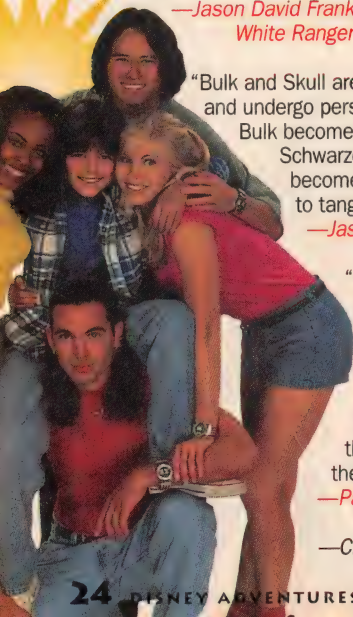

Bulk becomes this Arnold Schwarzenegger type. And I become this guy who likes to tango."

—Jason Narvy (*Skull*)

"We get run over by 50 natives. We dodge giant, falling, foam rocks...which the special effects guys thought was so funny they started throwing them at us."

—Paul Schrier (*Bulk*)

Ask Liz

Dear Liz:
Is there something going on between Bush's Gavin Rossdale and No Doubt's Gwen Stefani?
Becky Beaulieu, 14
South Dartmouth, Massachusetts

Yes, Becky, the rumors you've heard are true: Gwen and Gavin are dating (they just returned from a trip to Europe). Watch for an interview with Gwen in an upcoming issue of D.A.

Dear Liz:
I would like to know if Jonathan Taylor Thomas has an E-mail address?
Jenny Stovall, 13
Folton, California

Well, Jenny, even though I can't give you JTT's E-mail address (it's totally private), you're in luck! A bunch of our fave Hollywood stars—JTT, Andrew Keegan, Danielle Fishel, Jodie Sweetin, Candace Cameron-Bure, Tia and Tamera Mowry and others—can now be found at one cyber site! It's the "Celebrity Sightings" Web site (<http://www.celebritysightings.com>), and for \$5 a month, you can access it 24/7! Each star's site features official news and photos, puzzles, special events (including live chats!), fan mail and video clips. All the info comes straight from the celebrities. So you don't have to wonder if JTT is really on-line or not...now he is!

Hey! I'm getting bunches o' letters from you guys—it's great, keep 'em coming! Send your entertainment questions to: Ask Liz/Disney Adventures, 500 S. Buena Vista Street, Burbank, CA 91521-6153.

Tim Allen, King of Hollywood? Sure, why not? He's got the credentials: a No. 1 hit TV show, "Home Improvement"; two box-office smash movies, *The Santa Clause* and *Toy Story*; two best-selling books, and tons of awards.

But what about Tim Allen, King of the Jungle? Think he could retain the crown when dealing with humongous weird wildlife, strange diseases and bizarre clothing? Tim gets the chance to prove his stuff in his latest movie, *Jungle2Jungle* (opening March 14).

He plays Michael Cromwell, a New York stockbroker in business with his partner, Richard (played by Martin Short). Michael travels to the Amazon rain forest in Venezuela to get divorced from his wife, who lives there. On his trip he discovers he has a jungle-raised 12-year-old son, Mimi Siku (played by Sam Huntington). After meeting Mimi, Michael takes him to New York City. Mimi is familiar with dangers like Venezuelan piranhas and snakes, but not New York dangers—like taxicab drivers and waiters. Mimi gets into trouble faster than you can say "a wim-o-weh" and Michael must get him out of it.

Tim took a quick break from taping "Home Improvement" to talk about the wild times on the set of *Jungle2Jungle*, which he filmed in the jungles of Venezuela and the concrete jungle of New York City.

FUNNYMAN TIM ALLEN GETS WILD IN HIS NEW MOVIE, *JUNGLE2JUNGLE.*

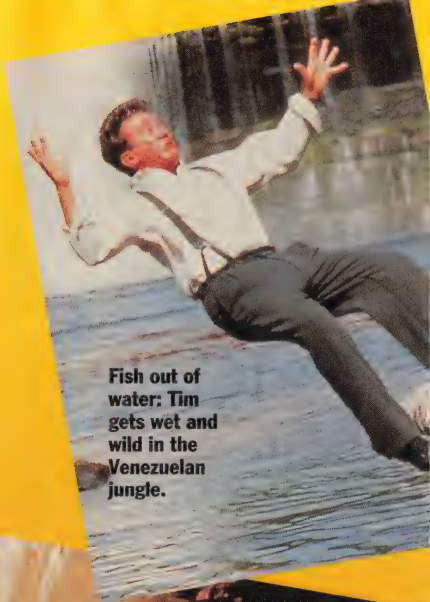

BY LIZ SMITH

Did you have any weird animal encounters in the Venezuelan rain forest?

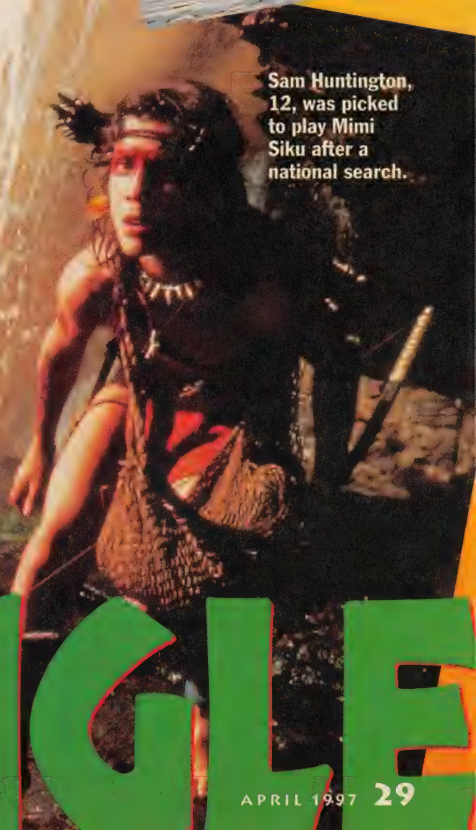

"There was this thing that looked like a log near where we ate, but it turned out to be a lizard. We didn't know it was a lizard until it pooped on everybody and someone said, 'I don't think trees poop!' One night, I thought I saw a squirrel behind a nest...I saw a little head pop out of a hole and when I saw the little face and hands, I went, 'Aaahhh!' It was a monkey! And those Froot Loops birds—I don't know what to call them [they're toucans]—were everywhere."

We heard the moths there are really big....

"We put up lighting systems to light the jungle for our night scenes, and they attracted gigantic moths that were a little frightening. They look like mice with wings, they're so big! One landed on the director's head while we were filming a big scene. I saw it, but he didn't, and when he went to scratch his head, his hand hit this thing the size of a baseball glove! He went into a panic, which was hysterical to me."

Fish out of water: Tim gets wet and wild in the Venezuelan jungle.

Sam Huntington, 12, was picked to play Mimi Siku after a national search.

How did you get along with Sam Huntington?

"He was fabulous, a terrific, funny guy. He would start laughing so hard with Marty Short and me that he couldn't do his take. And he was able to mimic me totally. Within two days, he took the best of Marty Short and the best of Tim Allen and turned it into 'A Bit From Sammy.'"

It's almost April Fools' Day—do you and your 6-year-old daughter, Katy, pull pranks?

"We have a three-inch stuffed warthog in the house and the biggest prank we're all doing is finding more and more inventive places to hide it. So you open up a closet to get new toilet paper and it's hiding in there. Or sometimes I open the car door and it's driving the car."

Sheet Music: "Tamar was in the bathroom and she ran out of Charmin!" Towanda remembers. "So she called out, 'Somebody get me some toilet paper,' and we made up our first song about it. Mom heard us and from then on, whenever company came over, we'd have to sing the 'Toilet Paper Song.'"

Practice Makes Perfect: "During the week we had homework, and Saturday was practice time," says Trina. "Now I see how it paid off, but we did want to go outside and play once in a blue moon!"

The Superman Song: Their hit "Where Do You Go" played in a "Lois and Clark" commercial, which thrilled Marty—"I love Superman!" But Ariel admitted he doesn't watch the show and even asked D.A., "How long has it been on?"

The Twin Factor: "Gabriel and I grew up wanting the same thing, so working with my brother is pretty natural," says Ariel. "But we have our own personalities—we used to fight a lot when we lived together."

Dream Tours: "I'd like to work with Toni Braxton," says Marty. "I love her music and her singing style." But Gabriel has other ideas: "I want to tour with the Artist Formerly Known As Prince—I'd ask to borrow his band!"

On the Road Necessities: "I bring protein powder to try to be healthy," Marty laughs. Ariel brings all 200 of his CDs. "I just need to have them," he says, "even though I may not listen to any of them."

Scoring the Hits: "We all write songs together," says Mel B. "Somebody might come up with a melody, somebody else might come up with a hook and we all talk about concept."

Crazy Costumes: "It's not hard to walk in platform shoes, but it is hard to dance in them!" Emma explains. "I fell down once on a live television show and I was wearing a mini skirt...aaahhh!"

Fooled Ya!

In honor of April Fools' Day, here are a few What's a hoax? A bamboozle, a con, a trick, he fools others, usually in a big way.

Mysterious Lake Monster Sighting!

The Scam: The Loch Ness monster sighting

been reprinted many times since then as "proof" that the monster really exists.

The Story: One of the most famous photos of the Loch Ness monster was taken in April 1934, by a doctor named Robert Wilson. Wilson said that he was standing about 100 feet above the lake when he saw something creating a commotion in the water 200 to 300 yards offshore. He ran to his car, grabbed his camera and took four photos of what looked like a creature lifting its head out of the water. One of the best photos has

The Hoax Revealed: In late 1993, the last surviving hoax conspirator fessed up. Christian Spurling told two Loch Ness researchers that he and his stepfather, his half brother and Wilson had faked the monster by attaching the head of a fake sea serpent to a toy submarine. Their "Nessie" measured a monstrous 12 by 28 inches!

UFOs Invade Earth!

The Scam: The Maury Island UFO sighting

The Story: A harbor patrolman claimed to have filmed six doughnut-shaped objects in the skies east of Maury Island, off the coast of Washington State, on June 21, 1947. One UFO spewed two kinds of metal onto the beach. Further investigation showed that one "metal"

was only lava rock; another was ordinary aluminum. And the UFO film had mysteriously disappeared. Two military men also looked into the story and found no evidence of UFOs. However, when they were killed in a plane crash immediately after their investigation, this story entered UFO legend.

of the greatest hoaxes in history.
a fraud when someone plays a hoax,

Mankind's Long Lost Ancestor Found!

The Scam: The Piltdown man

The Story: Paleontologists are always digging up old bones—the older, the better. So scientists were totally stoked when they thought that the jawbone and skull fragments of a humanlike ancestor of man's had been found. The bones were dug up between 1911 and 1915 in Piltdown, England, and named the Piltdown man.

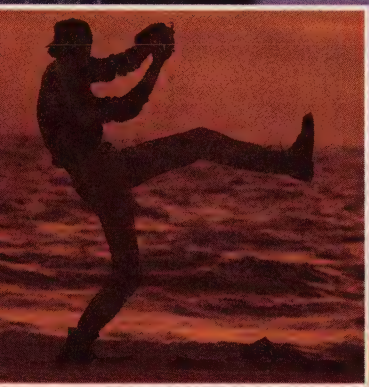

The Hoax Revealed:

It wasn't until almost 40 years later that scientists figured out that the Piltdown man was a hoax. The jawbone was from an orangutan; it had been broken and the teeth had been filed to look more like a man's. The bones were also "aged" with dyes and other chemicals. The prime suspect: An amateur paleontologist named Charles Dawson, who might have created the fake to win other scientists' respect.

The Hoax Revealed: The harbor patrolman and his superior finally confessed that the story was a joke that got way out of control. However, hard-core UFO believers still say the military men were killed because they "knew too much"—and that the real story is yet to be revealed.

Man Operates on Patients— But He's Not a Doctor!

The Scam: The Great Impostor

The Story: Talk about self-confidence! Ferdinand Waldo Demara was called "The Great Impostor" because he could fake his way through any job. Using falsified credentials, he worked as an army orderly, science teacher, college dean, deputy sheriff, biology professor, prison warden—even a surgeon!—even though he had no experience or training for those jobs.

The Hoax Revealed: Demara's desire for fame was his downfall. He sold his story to *Life* magazine and a book based on his life was made into a movie. Once the public knew about his scams and what he looked like, he had to work under his own name for the rest of his life.

Mets Sign Pitcher With 168 MPH Fastball!

The Scam: The Sidd Finch Story

The Story: The April 1, 1985, issue of *Sports Illustrated* ran an article on a hot new pitcher named Hayden (Sidd) Finch. He could throw a fastball at 168 miles an hour—a skill he had learned through years of practice in Tibet! The

article included photos of Sidd working out at the Mets' spring training camp. The magazine's phones rang off the hook as readers and other sportswriters called to find out more about this amazing ballplayer.

Shakespeare Pens New Play— Centuries After His Death!

The Scam: The new Shakespeare play
The Story: In the late 18th century, a man named Samuel Ireland collected Shakespearean relics. Since there weren't many around, his son faked a few and gave them to his father. One of these "discoveries" was an unknown play by Shakespeare called *Vortigern and Rowena*. Ireland convinced a leading actor and producer of the time to stage the play. It was so bad that the audience applauded when it was announced that it would never be performed again!

The Hoax Revealed:

Ireland's son later published a pamphlet that confessed to faking not only the play, but also a love letter from Shakespeare to Anne Hathaway and a deed of sale.

21 Finch

15 FOSTER

The Hoax Revealed: *Sports Illustrated* later admitted to running the fake article as an April Fools' prank. The magazine did play fair with its audience, however; it included a secret message that clued in alert readers to the hoax. All they had to do was write down the first

letter of each word in the article's introduction: "He's a pitcher, part yogi and part recluse. Impressively liberated from our opulent life-style, Sidd's deciding about yoga and his future in baseball." Can you figure it out? (Hint: Ignore the last five words.) ■

CHATTING WITH CHEWBACCA

Peter Mayhew tells D.A. about playing the wonderful Wookiee.

Twenty years after the release of the three Star Wars films, Peter Mayhew still gets letters from kids who are curious about the Wookiee he played. They want to know how big the Millennium Falcon is and what Chewbacca's family is like. D.A. had a lot of questions too, so we called tall Peter (he's 7 feet 3 inches!) in London to get some answers.

Do you have a favorite line?

**"Let the Wookiee win."
[C-3PO to R2-D2, after Han Solo says Wookiees have been known to pull others' arms out when they lose.]**

Did you have to wait a long time after auditioning to find out you'd gotten the part?

"No! I got hired to play Chewie just 20 minutes after meeting George Lucas! And within an hour we were working out the costume. It was a dream come true."

What is Chewie's costume like?

"It's one piece with a zipper in back. I wore a jacket underneath to take away my human shape, plus a bodysuit so I wouldn't itch. It was perfectly comfortable, like a big sweater. I also wore a mask, which I could take off between scenes, and a touch of eyeliner under each eye. It took me five to ten minutes to get ready."

We've been dying to know what Chewbacca carried in his bag...

"Sandwiches [laughs]! All the stuff a Wookiee would need. He didn't have any pockets to put things in."

Was it a pain carrying C-3PO around on your back in The Empire Strikes Back?

"Yes. He was fairly heavy and in bits and pieces. And the crew ran fishing line through his costume to mine so when I moved my hands, his arms moved, too."

What's your favorite Star Wars collectible?

"The radio-controlled R2-D2 unit—I have one sitting on my fireplace. I like mechanical things."

So that's why Lucas hired you, you really could repair the Millennium Falcon!

"Well, Harrison Ford (Han Solo) couldn't fix it!"

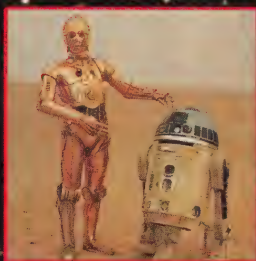

THE MAN IN THE GOLDEN SUIT

*Anthony Daniels, who played C-3PO, talks to D.A...
and we don't interrupt!*

It isn't easy being a droid—just ask Anthony Daniels. While making the three Star Wars movies, he spent hours in an uncomfortable costume—it weighed 60 to 70 pounds! On screen as C-3PO, he was annoyed and constantly interrupted by his co-stars. On breaks, he was often ignored: "I'd be standing in the costume and people would forget I was in there," Anthony says. We called Anthony at home in London to chat about our favorite Human-Cyborg Relations Droid.

How long did it take to get into the costume?
"Two hours! I was an unhappy droid. But it got better when we filmed *Jedi*—the costume was adapted so I could get into it in ten minutes."

Could you see through the mask?

"I could see straight ahead for miles, but I couldn't see sideways without turning my head. Once I turned around and a man with an umbrella was behind me. I thought he was keeping the sun off me, so I said I wasn't hot. But he said, 'No, it's raining.' I couldn't tell."

Did anything funny happen during filming because you couldn't see?

"When we walked into the cantina in *Star Wars*, Luke is on my left and I'm talking to him. Then he moved to my other side and I didn't even notice."

What's your favorite line?

"Most people love the line, 'We're doomed.' Poor 3PO has no sense of humor, so everything that happens to him is pretty bad. I worry about him a bit."

Do you have any behind the scenes secrets you can share?

"The Jawas were played by the children of crew members. They were begging to be Jawas. So the costumers put them in the costumes with blinking eyes and the wool hoods and they were all happy. But after a few takes, they got hot and bored. R2 and I ended up comforting them. We could relate."

WHATTA BUNCHA YODAS!

Whether you want to dig up rare Star Wars boodle, meet SW artists or just hang out with fellow Star Warriors, a science-fiction convention is the place to go. D.A. checked out a recent Star Wars show, and it was more fun than a barrel of Ewoks.

Yeek, get it off! D.A.'s comics editor Heidi finds a Salacious Crumb puppet sitting on her shoulder.

Dealer Vinny Zurzolo gets ready for lunch with his stylin' Yoda lunch box. Oh no, not roast bantha again!

The Hildebrandt brothers, Greg (left) and Tim, show off paintings and concept drawings from their Shadows of the Empire card set.

Will the real Boba Fett please stand up? These convention-goers dressed as their favorite character, the villainous bounty hunter Boba Fett.

RAIDERS OF THE LOST VIDEOS

OK, you've seen the original *Star Wars* movies 20-plus times...but did you know that Lucasfilm created three other *Star Wars* adventures for TV? D.A.'s got the lowdown on the *Star Wars* movies (which lay hidden in your video store) that no one talks about.

The *Star Wars* Holiday Special (1978)

The Plot: Chewie must return to his home planet for the holidays, also known as Life Day. Luke, Leia and Han appear, as well as Chewie's family, Mala, Itchy and Lumpy. Musical guests include Diahann Carroll, the Jefferson Starship and Bea Arthur.

Best Scene: A cartoon starring Han, Luke and Leia includes the very first appearance of your favorite bounty hunter, Boba Fett!

D.A. Rating: Aired in 1978, this special has not been seen since! The only way to see this classic is by buying an illegal bootleg. The reason? Let's just say that this (and the *Star Wars Christmas Album*) proves that the Force and holidays don't mix.

The *Ewok Adventure* (1984)

The Plot: Two kids—Mace and Cindel—crash on the moon of Endor and must enlist the aid of Wicket and the other Ewoks to find their parents.

Best Scene: Kids and Wicket battle a giant spider.

D.A. Rating: A little slow, plus that Cindel kid is a little too cute for us.

***Ewoks: The Battle for Endor* (1985)**

The Plot: Cindel and Wicket team up with curmudgeonly Noa (Wilford Brimley) to save the Ewok village from the evil King Terak.

Best Scene: Wicket and Noa break into Terak's castle to rescue Cindel and the other Ewoks.

D.A. Rating: Reminds us of *Willow* (which was also produced by Lucasfilm).

Better special effects, but Cindel is still annoying.

Star Wars by the Numbers

*Fun and forceful figures from the three *Star Wars* movies.*

The number of times someone says...

"The Force": 43

"I have a bad feeling about this!": 5

"We're doomed.": 3

THE BLOOPERS

Watch the Star Wars movies closely and you'll discover a whole new form of entertainment!

Nobody is perfect...and *Star Wars, The Empire Strikes Back* and *Return of the Jedi* prove it. Before hitting theaters for the special editions, we carefully checked out all 377 minutes (that's 22,620 seconds) of the originals on video. We discovered a Millennium Falcon full of goofy bloopers that made the final print! Here are the best blunders, in order of appearance:

Star Wars

Greedo's Life After Death:

Han Solo blasts Greedo to bits in the cantina, right? OK, so why does Greedo walk down the street a minute later, after Luke and Obi-Wan sell their landspeeder?

Headbanger: While Luke, Leia, Han and Chewie fight to stay three-dimensional in a trash compactor, C-3PO and R2-D2 hide out in a security office closet. As the stormtroopers barge in, watch the guy on the right—he bangs his head on the door frame! Can you say whiplash?

Costume Confusion: As Darth Vader and Obi-Wan duel on the Death Star, Vader says, "You should not have come back." Look at his chest plate—it's backward! The three silver buttons are on the right instead of the left.

Oops, Luke Goofed! After the Death Star's destruction, Luke returns to the Rebel base, climbs out of his X-Wing and yells, "Carrie!" as Princess Leia (played by Carrie Fisher) greets him.

STRIKE BACK!

The Empire Strikes Back

Crew Goof No. 1: C-3PO falls apart and ends up in Cloud City's junk room. When Chewie finds him, look closely (slo-mo suggested) at 3PO's head during the close-up on the conveyor belt—there's a reflection of the camera and several crew members.

Costume Confusion, Part 2:

This blooper spans two movies. In *The Empire Strikes Back*, Han is frozen in carbonite wearing an untucked, tunic-style shirt with straps around his upper arms. But in *Return of the Jedi*, when Leia defrosts him, he's wearing a tucked-in, double-breasted shirt with no straps around his arms. Do you think kind-hearted Jabba thawed him out to change clothes?

Return of the Jedi

Hello, Mr. Stuntman: In the close-ups of Lando hanging onto the skiff above the Sarlacc pit, his hands are bare. In the wide shots, he wears black gloves—the stuntman (used in the wide shots) must have had slippery hands.

Costume Confusion, Part 3: Watch Luke's hands as he chases stormtroopers on speeder bikes through the forest on Endor. Toward the end of the chase, there's a close-up of Luke wearing his glove (you know, the one that covers his robotic right hand) on his left hand!

Crew Goof No. 2: On Endor, Han and Leia plant explosives to blow up the Death Star's energy-shield generator. Han runs away yelling, "Move! Move!" Look behind him during the second "Move!" and you'll see his reflection in the sheet of Plexiglas used to protect the actors from the explosion. ■

SHARK ATTACK!

By Gina Pera

Wherever it goes, the great white shark leaves a trail of mystery—and often, blood. Just ask swimmers who've had close encounters with this hungry hunter. For their incredible stories and a sea of amazing shark facts, take the bait and turn the page.

Frightening tales from
survivors of
great white shark attacks.

JAWS

Into the Red Triangle

Surfers call Dillon Beach, California, and the surrounding area the "Red Triangle." The reason? Shark attacks. Still, Steve and Mark Quirt have surfed there many times without a problem. Until last October. That's when Steve watched in horror as a great white grabbed Mark, his 22-year-old son.

"I was waiting for a wave when I was hit by this intense electric shock. It felt like being hit by a car," says Mark. "Then I saw this huge black eye. And these teeth. It happened so quickly. What I remember most is pure, ultimate fear. I screamed 'Shark!' and it pulled me backward. Then, as fast as it came, it let go, leaving a huge wake of blood and water. It circled me twice as I got back on the board and tried to paddle. My dad paddled over to help,

and we made it to shore."

A helicopter flew Mark to a hospital. He survived, but he had suffered 18 puncture wounds, each at least two inches long, and a slashed kneecap.

"Every once in a while," he says, "I still see that eye in my dreams." ■

OF DEATH

"A Huge Row of Shiny Teeth"

"Suddenly, a huge crash and bang hit me, grabbing my torso," recalls Australian Rodney Fox. The crash and bang was a great white shark, which attacked Rodney as he was spearfishing underwater in 1963.

"When I tried to push it away, my arm disappeared in its mouth. Its jaw closed just as I was pulling out my arm, ripping it to pieces. There I was—huge holes in my chest, a collapsed lung, my spleen uncovered and a major artery exposed. I saw this cold, staring black eye, a huge row of shiny teeth and this big hole in the middle—where I was supposed to go."

Rodney grabbed the shark in a bear hug so it couldn't fight. "But I was going to die if I didn't get some air," he says, "so I pushed off the bottom and headed straight up to the surface. Then it swallowed a fish float tied around my belt—with me attached to

the other end. It pulled me through the water faster and faster until, finally, the line snapped!"

You'd think that would have convinced Rodney to stay out of the water forever. After all, no one has survived a more savage attack by a great white. But these days Rodney coordinates expeditions to film and study the great white—and he fights to protect the mighty fish from extinction. ■

A World of Hurt

Last August, Colum Tinley spent his 36th birthday in a hospital bed, grateful to be alive. The main artery in his neck had nearly been severed; teeth marks on his torso indicated a 16-foot-long attacker.

Colum had met up with a great white shark while diving for abalone off Tomales Point in northern California.

"I was about ten feet from the surface," says Colum of his close encounter. "Suddenly, this two-ton fish was speeding toward me like a bat out of hell. Next thing I knew, the mouth opened and I saw a row of teeth

on top and teeth on bottom. It all happened so quickly. On reflex, I put my hand on its nose and tried to push away. But it had me in its mouth—from my hip to my shoulder, and my arm, too. I think I blacked out. Then it thrust me to the surface and, for some reason, let go. I was in a world of hurt. But I knew I had to get back to the inflatable boat before the shark came back. My friends said my blood made a trail of red in the water."

Colum learned from his experience. He hasn't been diving in the same area since. ■

Bite, Spit and Wait: How a Great White Strikes

Man-biter" sounds wimpy compared with "man-eater."

But marine biologist John McCosker says the first nickname more accurately describes the great white.

For 20 years, John has roamed the world's oceans—to study the big fish's attack behavior. He's dangled in underwater cages (like the one shown here), extended a hand to "pet" a great white and seen—up close and personal—those fierce jaws burst through the water's surface.

As terrifying as a great white shark looks, though, it usually bites humans by mistake, says John, of the California Academy of Sciences. This shark prefers snacking on seals

or sea lions. And from below, a surfer floating on his board while wearing a wetsuit does look suspiciously like a seal.

In fact, a great white seldom finishes off a scrawny human entirely—unless it's really hungry. And thankfully, most bite victims are rescued before the shark can return.

John sums up the shark's strategy this way: First, the shark quickly sneaks up on its prey. Next, it bites off a chunk—enough to kill or at least weaken its victim—and then moves away. (This step is crucial: If a great white gets into a struggle with a seal or sea lion, it risks claw damage to its sensitive eyes.) Once the prey weakens, the shark comes back to finish the meal. ■

John McCosker

Much about the **GREAT WHITE**
SHARK remains a mystery.
Here's what we do know.

KING

Extremely sensitive eyes can be rolled back into their sockets for protection during an attack.

The ampullae of Lorenzini are jelly-filled capsules that help a great white detect prey. They sense the faint electric field generated by a beating heart, moving gills or swimming muscles. No wonder great whites sometimes bite boat motors!

Jaws don't just open wide, but can extend and grab—you gotta improvise when you don't have hands.

OF THE SEA

Gray color on top, white underneath, helps a great white blend into the water from above or below.

Its crescent-shaped tail fin supplies speed and power.

The following reportedly have been found in the stomachs of great whites: sea turtles, whole sheep, bulldog, cuckoo clock, bottles, tin cans, straw hat, lobsters, horse parts and a Frenchman in a suit of armor.

Great Whites...

- can grow up to 21 feet long and weigh as much as 5,000 pounds.
- live where cold water meets land—and where there are plenty of marine mammals like seals and sea lions.
- Favorite spots: California, Chile, South Africa and South Australia.
- cruise slowly most of the time, but can speed up to 25 miles per hour.
- can thrust their heads above the surface, the only fish known to do so.
- go by the Latin name of *Carcharodon carcharias*.
- are suspected of attacking about one person a year and of killing 12 people in U.S. waters over the past 75 years.
- have no enemies other than man, but are still in danger of extinction.

QUIZ

Have YOU Caught SPRING FEVER?

BY DEBORAH BARNES

If you find yourself acting weird and feeling funny, don't stress out. You probably have spring fever, that gotta-be-outside, can't sit-in-class-another-minute feeling that means warm weather is on its way. To find out if you've caught the bug, check "yes" or "no" on the following list of symptoms.

1 You have a strange urge to run around barefoot anytime you're outside—or even when you see a picture of the outdoors.
—Yes —No

2 You've started putting swim trunks on your snowmen.
—Yes —No

3 You and your friends are playing ice baseball instead of ice hockey.
—Yes —No

4 You actually kind of bummed when the weather forecast called for more snow.
—Yes —No

5 You wear your swimsuit and snorkel in the bathtub.
—Yes —No

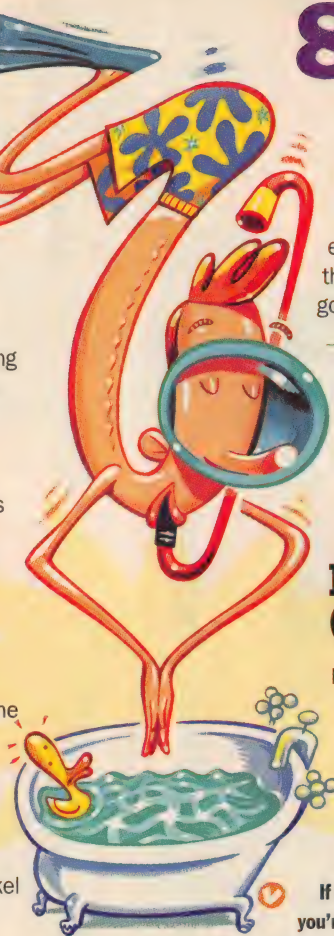

6 When you go to the store, you spend way too much time at the sunscreen counter.
—Yes —No

7 You constantly want to open all the doors and windows in your house—even though it's still freezing outside.
—Yes —No

8 When no one's looking, you actually skip to class.
—Yes —No

9 You're already wearing shorts—and telling everyone you're hot even though your legs have goose bumps.
—Yes —No

10 Classes seem to get a little bit longer every day.
—Yes —No

Diagnosis Chart

If you got **fewer than 5 yeses**, you might be illin', but it's not because of spring!

Prescription: Does your school have a therapist on staff?

If you got **5 to 7 yeses**, you're well on your way to a textbook case of spring fever.

Prescription: To avoid being overcome by fits of barefoot running, clover rolling or uncontrollable puddle splashing, spend a little time outside every day, gradually increasing your spring exposure.

If you checked yes **8 or more times**, you've definitely got the spring thing bad.

Prescription: There's no real antidote. Spending every possible minute outdoors makes you feel better, but it only makes you want to stay outside longer. The good news? It's probably the most fun sickness you'll ever have! ■

GO BIG UNIT

D.A. faces Seattle Mariners speedball hurler Randy Johnson. Believe us, they don't call him "Big Unit" for nothing!

On the mound, Randy Johnson is a batter's worst nightmare. Step up to the plate and you may tremble at his awesome size (6 feet 10 ½ inches) and fearsome fastball. "Big Unit" takes no prisoners.

You're really tall. Did you have any major growth spurts when you were a kid?

"Yeah, when I was a freshman or sophomore in high school, I grew about four inches in a couple of years."

With your live arm, do you ever worry about hitting batters?

"Constantly. That's why I don't pitch inside very much, because I'm afraid I might hurt someone. Anytime I hit somebody and they get up and walk down to first base, I always ask whether they're OK."

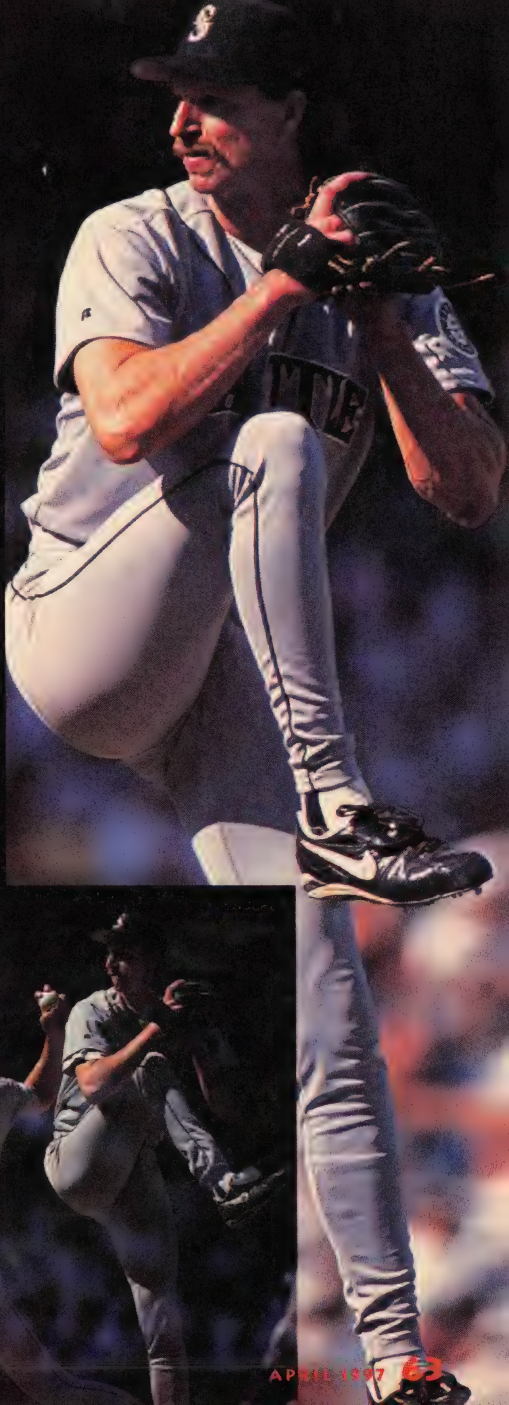

Who's the toughest batter to face?

"It can be anyone. On any given day, there are certain people you don't think are going to be tough, and they end up going 3-for-3 or 4-for-4. And then a week later, they might not even get a hit off you. Everybody has his day."

Anything you don't like about the pitcher's mound?

"Just that it's not close enough to home plate!" ■

Hangin' in The Neverhood

Some kids never outgrow their need to play with clay. This game maker molded tons of the old-fashioned gunk into a cool new adventure.

As Klaymen, players must solve puzzles to defeat the evil Klogg and reclaim the Neverhood Krown.

Doug TenNapel, the creator of Earthworm Jim, has developed a new game, *The Neverhood*. As the hero, Klaymen, you must save the Neverhood from the evil Klogg. To find the clues, you must wander through a land of creepy creatures, wacky machines and weird artifacts.

Here's how Doug and his team made the game. First, they designed the game's puzzles and scenes on paper. Using clay, the animators shaped 29

puppet figures, including eight versions of Klaymen. Some made him look bigger or smaller compared with other characters or sets. Others were stunt Klaymens, used and abused in action sequences.

Finally, they animated the action using stop-motion technique. It works like this: Set up the clay puppet in a pose; shoot one frame; move the figure into the next pose; shoot again. Put 'em all together, you've got action!

"We were constantly fighting gravity," Doug says. "When you draw characters on a computer, it's easy to make them jump. But with clay puppets, you have to use wires and edit them out later. The lights also tend to melt the puppets, so we were constantly remolding the clay."

The final CD-ROM contains more than 50,000 frames. (Whew! That's like taking 50,000 pictures!) "We were lucky to shoot 500 frames a day," Doug says. "We did 800 frames once—that was a great day!" The team used more than three tons of clay to sculpt the figures and sets. (In comparison, an elephant weighs four tons.)

This entry is my original creation. I did not copy it from anywhere, and I did not have any help creating it. I know that, once submitted, my entry becomes the property of Disney Magazine Publishing, Inc. and may be reprinted without further consent or compensation. NO PURCHASE NECESSARY**

1. HOW TO ENTER: Each member of a team consisting of two (2) or three (3) children should complete the official entry form located on this page. On a separate sheet of 8 1/2- by 11-inch paper the following question should be answered through the teamwork of the 2 or 3 team members in any form they like: "If you could create a school of your very own, what would you teach and how would you teach it?" Make copies of the entry form for each team member, then staple the completed entry forms to the upper right-hand corner of the sheet containing your answer and mail the full entry together with the photograph of each team member, postage prepaid, to Children's Summit Contest, P. O. Box 7436, Burbank, CA 91521, postmarked by April 21, 1997. You may also submit, on or before April 21, 1997, your full entry on-line via <http://www.justthink.org> on a screen limited to 8 1/2 by 11 inches. The entry must be an original work. Four (4) winning teams will be selected on the basis of creativity, originality and educational value. "Winners" as used herein shall mean each and all of the members of a winning team, "Adult" as used herein shall mean the adult chaperone who shall accompany each winning team on the trip.

2. ENTRY LIMITATIONS: Only one entry per person or team. Open only to teams of children between 7 and 14, as of April 21, 1997, who are legal residents of the U.S. (excluding its territories, overseas military installations and commonwealths) or Canada (excluding Quebec) and not employees of Disney Magazine Publishing, Inc. (the "Sponsor"), its parent or affiliated companies, the advertising, promotional or fulfillment agencies of any of them, nor members of their immediate families. Sponsor is not responsible for printing errors or inaccurate, incomplete, stolen, lost, illegible, mutilated, post-date, misdirected, delayed or late entries or mail, or equipment or telephone malfunction.

3. RESERVATIONS: Void where prohibited or restricted by law and subject to all federal, state, provincial and local laws and regulations. All entries become the Sponsor's property, may be published or otherwise used at the discretion of the Sponsor without compensation or acknowledgment and will not be returned. By entering this contest, each entrant agrees to be bound by these rules and the decisions of the judges. Acceptance of prizes constitutes the grant of an unconditional right to use Winners' and Adults' names, voices and/or likenesses for any and all publicity, advertising and promotional purposes in any and all media throughout the world in perpetuity without additional compensation, except where prohibited by law. Winners and Adults must agree to release and indemnify the Sponsor, its

parent and affiliate companies, their advertising, promotional and fulfillment agencies and the employees of each of them, from all claims, injuries, losses or damages of any kind resulting from the acceptance, use, misuse, possession, loss or misdirection of any prize.

4. WINNERS: Will be notified by telephone on or about May 15, 1997. All responsibilities of Winners or potential Winners will be assumed by the parents/legal guardians. Winners are required to prove eligibility. The failure of a member of a potential winning team to verify address and execute and return an Affidavit of Eligibility/Release within ten (10) days from the date of notification, or the return of a notification as undeliverable, will result in disqualification and the selection of an alternate winning team. In the event of any other non-compliance with rules and conditions, prizes may be awarded to alternate winning teams. All travelers will be required to execute a Release of Liability prior to ticketing and to have valid passports at the time of departure. For a list of Winners (after May 15, 1997) and/or contest rules, send a self-addressed, stamped envelope to Children's Summit Contest Winner, P. O. Box 7436, Burbank, CA 91521. Washington and Vermont residents may omit the return postage.

5. PROCEDURES: Contest begins on March 11, 1997, and ends on April 21, 1997. Winning teams will be selected on or about May 15, 1997, from all eligible entries received. Initial winning teams will be selected by executives of the Just Think Foundation working with executives of Disney Enterprises, Inc. A team of experts in education and the news media will make the final selections. Odds of winning depend on the number of eligible entries received and the quality of the entries.

6. PRIZES: Four (4) GRAND PRIZES: To each of four (4) winning teams, a four (4) days/three (3) nights trip for all members of the team plus the Adult for each team, to the Children's Summit (June 9 through June 13, 1997) at Disneyland Paris, in France; including coach air transportation to/from the major metropolitan airport nearest the home of each of the Winners and the International Airport, Paris; airport transfers; hotel accommodations (two persons per room) for three (3) nights; and all meals and admissions to Disneyland Paris for four (4) days. COMICS ZONE

WELCOME TO THIS MONTH'S COMICS ZONE

Bone is back!

Ever since we first ran Bone, you've been asking when he's returning to the Zone. Well, you asked for it, you got it! For those who came in late, Bone, a.k.a. Fone Bone, and his cousins Phoney Bone and Smiley Bone, were run out of their hometown, Boneville. Now Bone finds himself in a strange valley filled with all sorts of mysterious creatures. As this episode opens, he is settling in for the winter, still separated from his cousins.

Where are they?

Who is Thorn?

And who else lives in the valley?

Let's just say that all the questions will be answered—eventually.
